

# SNAKEBUSTERS - THE BEST REPTILE SHOW FOR SHOPPING MALLS

Nothing pulls a crowd like a live reptiles at a shopping mall.

And no reptile show pulls a crowd like Raymond Hoser and the Snakebusters team. Put simply, no other reptile outfit comes close!

**The two main elements:**

**1 - World's best deadly snake show, including being the only one with the world's top five deadliest! It is also the ONLY legal deadly snake show in Victoria!**

**2 - ... "full on hands on", where the public then hold, meet and greet, crocs, pythons, lizards and other critters.**

No one else has this winning combination!

Snakebusters is owned by Australia's Snakeman, Raymond Hoser and no one has the experience of him and his crew.

He published the "Bible" on reptiles and frogs in 1989 and his nine major books, countless scientific discoveries, TV appearances and the like make him a real-life legend and drawcard at any venue.

Snakebusters handles reptiles so the audience sees them in a way no one else can emulate.

For shopping malls we usually do the following:

Starting is the world's best "deadly snake show" from a stage followed up with "hands on" touching or handling by the audience (the "meet and greet"), which usually includes small and huge pythons, lizards and crocodiles. The whole performance is slick and polished which is amazing given that 30+ live animals are used.

While if required, the shows are customized to fit the audience, the "snakebusters generic" show is generally the best alternative for malls as appeals to all ages and gender.

With a press promotion beforehand, the attendance (and spending) at your mall will go through the roof!

The names Snakebusters, Snakeman and Raymond Hoser are synonymous with the best things reptile. They easily outdraw any rival name.

Because we own the trademarks, your mall alone can promote "The Snakeman" and "Snakebusters" to get the biggest crowds when you book "Australia's best reptiles"!

For others, snakes usually means public liability risks, OH and S, and insurance headaches. But Snakebusters are alone in using vet-certified "venomoid" (devenomized) snakes for all public shows, and are therefore the only "Legal" deadly snake show in Victoria.

Snakebusters is the only "No risk" venomous snake show in the world!

We have full public liability cover, WWC police checks, Ethics Committee Approval, DSE permits, accreditations and so on.

We have our own PA system including up to four 200 watt speakers and several large backdrop banners meaning that we can literally "walk-in - walk-out" of a

The Snakebuster, Raymond Hoser with fourteen deadly snakes (nine Tiger, three Black, one Brown, one Copperhead). No one else in Australia handles snakes like this.

mall with a minimum of set-up arrangement or time and in various situations. The reptiles themselves are usually shipped in one or two compact carrying cases which are removed from the mall at the end of each day. Pre-event advertising can be assisted with A-grade photos, artwork and the like that we can supply.

Due to demand for our shows during school holiday periods we take bookings up to a year ahead and are usually booked out for the next nearest school holidays. Big malls already visited include: Centro's The Glen, Brandon Park, Box Hill, Heidelberg, Karringal, Ringwood, Wodonga and others, Stockland's Pines, Savills Endeavour Hills, Pacific's Werribee Plaza, Jam Factory, Century City, Market Square, Greensborough Plaza and other GPT malls and numerous regional malls. Snakebusters typically pulls from three to ten times the crowds of inexperienced reptile shows (minus the deadly snakes and hands on) that started touting for malls business from 2008 onwards.

But if you want Australia's best reptile show at your mall then book early to avoid disappointment.
